CDD15

Full-Electric Pallet Stacker

A 1.5 t stand-on stacker on a 3600 mm mast, built for longer runs and higher bays than a walkie. The stand-on platform and the 1867 mm overall length give the operator a stable ride while keeping the truck compact in the aisle. Rated capacity is 1.5 t at a 600 mm load centre.

Advantages

- Efficient drive with a long working time per charge.
- High-capacity pump station for fast lifting.
- Compact and light, simple to operate.
- Stable chassis that meets current safety standards.
- Solid channel-steel frame for stability and long service life.
- One exterior design across the 3600 mm mast.
